Seeds, tools, fertilizers, books and magazines, crop protection & enhancement products for sale. **HARBEST BONSAI** products also available – tools, books, wires, lime sulfur solution & fertilizers. *Our sales girls will be happy to assist and teach you how to grow your own vegetables and fruits.*

HARBEST AGRIBUSINESS CORPORATION

was established in July 1997 as importer and distributor for Known-You Seeds Co. products in the Philippines. Through the years, our product lines have expanded to include plastic materials like mulching film, seedling tray, irrigation and greenhouse systems, hand tractors, power sprayers, testing tools and many more. HARBEST imports 90% of its product lines from the most reliable suppliers from Taiwan, Korea, Japan & India. We are actively promoting the application of improved and doable agri-technologies from other countries as well as those developed locally. It is our *vision* that *HARBEST shall continue to serve the Filipino Farmers as a real Friend.*

HARBEST AGRITECH

HARBEST has implemented more than 200 season-long Techno-Demo and Training Farm projects throughout the Philippines in cooperation with the DA, DAR, LGUs, NGOs like SM Foundation, Inc. and CIDA, as well as, private companies. We have a team of 20 agriculturists distributed in major provinces who provide timely agritech guidance to farmers and dealers, organized farmers techno forum, lakbay-aral and field visits under **H.E.L.P** – HARBEST EDUCATIONAL AND LIVELIHOOD PROGRAM.

HARBEST operates two company-managed Training Farms, one in Carmen, Pangasinan and the other at Jala Jala, Rizal to provide actual hands-on training on greenhouse and open-field, high-value farming practices. All trainers have had long experience in commercial farming. 6-days intensive training modules for high-value crops are held here for those who want to learn the basics of modern vegetable farming. You can email or text us your name, email, fax or address, then type **TRAINING** and send to 0917-8507888. *We will send you detailed info.*

HARBEST ORGANIX

We are developing our product lines for organic farming with advocates in vermiculture, EM-1 technology and natural farming from Taiwan, Japan, Korea & Philippines. -seeds, fertilizers, crop protection, farming technique, reading materials and training modules.
